Hi Lance,

I know we are all preoccupied with other pollutants at the moment, but just wanted to touch base with you on the second Sierra Club modeling file that you were going to upload to our ftp.

Whenever is convenient for you, please just let us know when it's ready for us to retrieve.

Thanks again!

Ashley Keas

Lance,

We have downloaded the first file and deleted it so it's ready for you to upload the second.

Thanks!

Ashley

Hi Ashley,

I placed the Labadie Sierra Club Modeling files via ftp on /Distribution/DNR/DEQ/AirPollutionControl.

I was not able to upload them in the Planning Folder for whatever reason. Let me if you are able to grab the file and then I will upload Sibley.

Thanks

Hi Lance,

I did receive the email regarding the information but it did not let me open it or login, so it may be easier if you just send it to me via email. Or you should be able to use our FTP site to share it with me.

Sorry for the delayed response we were attending an out of town meeting this morning.

Thanks!

Hi Ashley,

Did you received an email from me indicating that I 'shared' a Folder with you? I am trying to use our SharePoint site to share the Sierra Club modeling with you, but I am not sure if this sharing works with someone outside the EPA organization. So let me know if you received anything, and if not I should be able to just attach the modeling files and send them to you via email.

Thanks

Lance

Andy,

Thanks for the update. We received reports from Sierra club regarding their modeling but not the actual input and associated modeling files to review. So if you wouldn't mind sharing all of those with us that would be great.

Thanks,

Ashley Keas

Lisa/Ashley,

Did you receive the Sierra Club modeling files for the sources in your states? If not we have their modeling and I can share those files with you if you are interested in reviewing it. You could also provide us thoughts on the sierra club modeling if you choose to. So Labadie, Sibley, GGS, Sheldon we have modeling files on.
